

INTRODUCTION TO **HEDGE PRO**

**BEST-IN-CLASS FX PLATFORM FOR
SEAMLESS GLOBAL TRANSFERS**

About **HEDGE PRO**

Managing foreign exchange should not distract you from growing your business. The complexities of currency transactions, fluctuating exchange rates and the administrative burden of payments can be time consuming. Our solution enables you to focus on what matters most—running your business and improving your bottom line. Whether you are dealing with routine transactions or managing complex payment flows, our services ensure every process is safe, fast and reliable.

We offer secure, multi-currency accounts in your own company name specifically designed to streamline every aspect of foreign exchange management and payments. Hedge PRO partners with Equals PLC, to provide a platform which allows you to book competitive spot and forward contracts quickly and with confidence, ensuring you always obtain the best rates for your FX requirements. You can efficiently set up and process mass payments, reducing administrative workload and saving time. With seamless integration into your accounting software (Xero), your financial operations remain aligned and hassle-free, providing full transparency and control.

With us as your trusted partner, you can optimise your financial operations and empower your business to achieve long-term success.

Our SERVICES

Hedge PRO Multi-Currency Accounts

When you open an account with Hedge PRO, you have access to your own multi-currency accounts in your business name. This means recipients see your company as the sender and senders put your company as the beneficiary when paying you.

You want to invoice in Pounds but the customer wants to pay in Dollars

You receive a USD account via Hedge PRO

The customer pays into your Hedge PRO USD account in Dollars from their USD bank account

Within hours you receive payment in Pounds from Hedge PRO into your GBP business account

The USD amount received correctly reconciles against the invoice at a competitive exchange rate

FX Risk Management

FX Risk can be mitigated using Forward Contracts to reserve the exchange rate you see today until the date you need it. Take the risk off the table by booking Forward Contracts which can lock in your rate and give you flexibility on when you drawdown to deliver the funds.

Our SERVICES

Mass Payments

Some businesses have a huge number of payment outflows to multiple beneficiaries in different currencies every month, which creates high wire fees and increased FX costs. Speak to us about our mass payment solutions to quantify how much we could save you compared to your current provider.

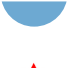

Xero Integration

The Xero Integration solution allows you to pull your transaction statements directly into Xero. When you connect your platform and Xero accounts, transactions are synced across once a day seamlessly, helping you to keep a real-time overview of your data.

Your funds are **SAFE**

Safeguarding with Hedge PRO

Any funds held on behalf of our clients are subject to safeguarding, making sure that our clients' funds are always protected. Currency accounts and payment services are provided by Equals Connect Limited, who are authorised by the Financial Conduct Authority to provide payment services (FRN: 671508).

As an Authorised Payment Institution (API), Equals Connect are required to comply with safeguarding requirements under regulation 23 of the PSRs 2017. The PSRs 2017 impose safeguarding requirements to protect customers where funds are held by an institution and not a bank. Safeguarding is a set of rules that defines how an API must protect your money. These rules are designed to ensure that if an API fails, your money is kept safe and will be paid back to you.

Equals Connect hold a number of designated client safeguarded bank accounts with various UK and EEA authorised credit institutions. Client funds are pooled and held in these accounts separate to working capital. These accounts are protected by law from any creditors making a claim against them.

Along with being FCA authorised, Equals Connect is regulated by Her Majesty's Revenue and Customs (HMRC) as a Money Service Business (Licence No: 12594438).
